

PROJECT CLEAN SLATE

STALLED STUDENT PROCESSES DASHBOARD

The "Stalled Student Processes" dashboard provides Workday Student Analysts and enrollment stakeholders with real-time visibility into critical operational bottlenecks within TSTC's multi-campus student enrollment and financial aid processes.

Leveraging data from the v_tier3_stalled_bottlenecks BigQuery view, this interactive tool presents key performance indicators (KPIs), detailed charts, and self-serve filters to identify, track, and prioritize stalled student records, thereby enabling rapid intervention and strategic process improvements to optimize enrollment velocity.

TOTAL STALLED RECORDS

317

The total count of student records currently stalled, requiring manual intervention.

AVG PROCESS DELAY (HOURS)

63.58

The average time student records remain stalled, indicating overall efficiency.

MAX PROCESS DELAY (HOURS)

166.91

The longest a single student record has been stalled, pointing to extreme cases.

CRITICAL RISK STUDENTS

(ISIR Verification)
162

51.1% of Total Stalled Records

Students with active holds and federal verification needs, representing high-priority financial aid cases.

STALLED RECORDS BY RESOLUTION TEAM & SLA STATUS

Details stalled records and average delays, categorized by resolution team and SLA status.

	assigned_security_group	operational_sla_status	student_id	elapsed_time_hours
1.	Enrollment_Coach	SLA Violation: Immediate Escalation Required	69	87.96
2.	Financial_Aid_Partner	SLA Violation: Immediate Escalation Required	63	89.42
3.	Central_IT_Architect	SLA Violation: Immediate Escalation Required	61	87.17
4.	Financial_Aid_Partner	Warning: Approaching Threshold	26	33.61
5.	Enrollment_Coach	Warning: Approaching Threshold	26	37.71
6.	Central_IT_Architect	Warning: Approaching Threshold	20	34.25
7.	Financial_Aid_Partner	Within Acceptable Parameters	18	12.15
